Description	Features
<p>See The Pendulum Leg Extension is one of the most efficient ways to isolate the quadriceps. With our unique strength curves and adjustable range of motion, we have created a machine that maximizes the benefit of the extension movement while minimizing the impact to the knee.</p> <p>The ability to completely control the range of motion throughout the rep, makes this a powerful tool in your training protocol.</p>	<ul style="list-style-type: none"> Adjustable seat back accommodates to a wide variety of athlete sizes. S.E.T. (Set Extension Technology) range limiter Customizable color options available
